WEATHER KEY POINTS

04/21/19 - 04/27/19

Sunday

- Isolated rain showers and thunderstorms across the southern Sierra Sunday, but less than 0.10” of rainfall expected.
- Gusty north and northwest winds expected for southern CA mountains and deserts through mid-morning Sunday.
    - Hazardous travel conditions possible.
        - Limited visibility at times due to blowing sand and dust in the deserts.
        - Gusty cross winds affecting lightweight and high profile vehicles.
- Dry and warmer than normal conditions redevelop Sunday.
- The warm conditions over the past few days have continued melting of snowpack and will continue to lead to rises in rivers and streams as the new week begins. No flooding impacts expected at this time.

Monday-Saturday

- Dry conditions.
- Significant warming trend again for this week.
    - Widespread temperatures 10-20 degrees above normal by Tuesday and continuing through the week.
    - Much of the state will have low risk for heat impacts this week for those populations extremely sensitive to heat, especially those without effective cooling and/or adequate hydration.
    - Moderate risk for heat impacts Wed-Thu for those who are sensitive to heat in the southern Inland Region and deserts of Southern Region, and again Fri in the deserts of Southern Region.
- Isolated thunderstorm potential returns to the Sierra Thursday-Friday.
