***Regional Operations Center***
***Salt Lake City, UT***

**Day 1 (Monday)**: Gusty offshore winds are expected across portions of southern California, with minor damage and travel impacts possible in prone locations.

# WEATHER KEY POINTS

## 01/10/22 - 01/16/22

**Monday - Sunday**

- Periods of gusty offshore winds are expected across southern California through Tuesday or Wednesday, with gusts of 30-50 mph possible in prone locations
    - Minor damage and travel impacts are possible due to these gusty winds
- Areas of dense fog are possible through the week, which could impact travel across the state
- Most locations will remain dry throughout the week. A few periods of brief, light precipitation are possible across the state, with light snow possible over the higher mountains, especially late in the week. However, no significant precipitation impacts are expected.
