Cal OES COASTAL REGION

Evacuations, San Francisco, San Francisco County (NEW/FINAL)

On 02/15/17 at 1606 hours, the California State Warning Center (CSWC) received a report from the Coastal Duty Officer (CDO) advising that a large, unstable piece of concrete is causing evacuations in San Francisco. A crane was filling framework with concrete when the framework collapsed causing both the concrete slab and the crane to become unstable

- The concrete slab is a 30-40 foot slab that could fall off a 37 story apartment building that is currently under construction
- The slab is on the 30th floor of a building on Tehama St. and officials evacuated five surrounding buildings on Tehama St.
- Buildings in the 500 Howard block were evacuated due to the concern that the building could collapse

Per the Cal OES CDO:

- The crane has been stabilized.
- A building inspector was dispatched to the site to evaluate building safety.
- Evacuees were allowed to re-enter the evacuated buildings with the exception of 44 Tehama Street.
- Evacuees who need access to the area to retrieve vehicles can obtain a police escort at the southwest corner of 2nd and Howard Streets.
- The San Francisco Department of Emergency Management EOC was activated for this incident and demobilized at approximately 2130 hours.
- All roads have been reopened with the exception of Tehama Street between 1st and 2nd Street.

GOVERNOR'S OFFICE OF EMERGENCY SERVICES

SITUATION SUMMARY

Oroville Dam Auxiliary Spillway Incident

On 02/12/17 at 1603 hours the California State Warning Center (CSWC) received notification from the Department of Water Resources (DWR) automated line that the Oroville Dam was in failure status due to extreme scouring of the auxiliary spillway. The CSWC are made notifications according to SOP. All down stream warning points were notified.

Per the DWR Flood Operations Center and California Data Exchange Center (CDEC) as of 02/16/17 at 1000 hours:

- Current releases from Oroville Dam (100,000 CFS) are within the downstream channel capacities in the Feather River.
- Inflows are at 26,000 CFS, substantially less than the outflow releases.
- The lake elevation has dropped below 867.90 feet as result, no water is flowing over the auxiliary emergency spillway.
- The target is to drop the elevation at Lake Oroville to 851 feet by 02/18/17
- The plan to prevent further erosion utilizes trucks, helicopters, and hand crews to move large rocks and gravel to fill holes in the emergency spillway.

Activations

- The Cal OES State Operations Center (SOC) activated at Level 4 in support of the Oroville Dam Incident
- The Department of Water Resources (DWR) Department Operations Center (DOC) has relocated to the SOC
- The DWR Flood Operations Center (FOC)
- Butte EOC
- Sacramento County EOC
- Sutter County EOC
- Sutter County, City of Live Oak EOC
- Yolo EOC

Cal OES
GOVERNOR'S OFFICE
OF EMERGENCY SERVICES

SITUATION SUMMARY

Cal OES INLAND (continued)

Declaration

Presidential Emergency Declaration, FEMA-3381-EM

- Federal emergency aid has been made available to the State of California to supplement State, tribal, and local response efforts due to the emergency conditions resulting from the potential failure of the emergency spillway at Lake Oroville Dam beginning on 02/07/17 and continuing.

Proclamations

- Governor Brown issued a Proclamation of a State of Emergency on 02/12/17 due to the Oroville Dam Auxiliary Spillway Failure.
- **Butte County**
    - On 02/13/17, the CSWC received a proclamation from Butte County due to the Oroville Dam Auxiliary Spillway Failure. There are no requests for state assistance at t this time.
- **Yuba County**
    - On 02/13/17, the CSWC received a proclamation from Yuba County due to the Oroville Dam Auxiliary Spillway Failure requesting Gubernatorial and Director's Concurrence.

Deployments

- 1 Cal OES Inland Regional Administrator deployed to the SOC
- 1 Cal OES Inland Region Deputy Regional Administrator (DRA) deployed to the SOC
- 1 Cal OES Inland Region DRA deployed to Shasta County
- 1 Cal OES Inland Region Senior Emergency Services Coordinator (Sr. ESC) deployed to Butte County
- 1 Cal OES Inland Region ESC deployed to El Dorado County
- 1 Cal OES Inland Region ESC deployed to San Joaquin County
- 1 Cal OES Inland Region ESC deployed to Yuba County OES
- 1 Cal OES Inland Region ESC deployed to Sutter County EOC
- 1 Cal OES Inland Region ESC deployed to Merced County EOC
- 2 Cal OES Fire and Rescue Branch Assistant Chiefs assigned
- 1 Cal OES Law Enforcement Branch Assistant Chief deployed to Butte County
- 1 CALFIRE Incident Management Team (IMT) Type 1 assigned (Team 3) at the Oroville Dam ICP.
- 4 CALFIRE Assistant Chiefs assigned are in the Fire EOC.
- 1 Emergency Management Coordinator to DWR DOC.
- 1 Public Safety Communications Technician

Cal OES
GOVERNOR'S OFFICE OF EMERGENCY SERVICES

SITUATION SUMMARY

Cal OES INLAND (continued)

Critical Infrastructure

- Per California Utilities Emergency Association (CUEA) on 02/16/17:
  - All utilities are presently stable.
    - The grid is currently stable provisions have been made to provide sufficient power to meet all needs.
    - The natural gas system is operational with no impacts.
    - Strike teams and water command trailers have been staged and are available if needed.
    - Southern California utilities have been alerted for the upcoming storm system and are standing by to respond to any incidents that may occur
- Per Union Pacific Railroad (UPRR) on 02/13/17:
  - Union Pacific has rerouted train service through cities in Placer and Butte counties due to the Oroville Dam emergency.
  - Customers in the affected area could experience shipment delays for 48 hours or more

Evacuations

- The mandatory evacuation order was lifted as of 02/14/17 and replaced by an evacuation warning due to the upcoming atmospheric river that will bring precipitation to the state through next week.

Tyler Island Levee Incident, Sacramento County (FINAL)

On 02/13/17 at 1150 hours the Flood operations center was notified that Tyler Island is experiencing a rotational slope failure along the southern part of the island on the Mokelumne River. Tyler Island was expected to flood due to the compromised levee.

- On 2/13/17 at 1500 hours, Sacramento County confirmed there is no breach in the levee near Tyler Island.
- The Reclamation district has ordered 100 ton of rock and heavy equipment which is enroute.
- The incident is being managed by the County
- At this time, there are no unmet needs, no shelters open, or request for more resources.

Evacuations

Per the Cal OES Law Branch as of 02/13/17 at 2045 hours:

- The Sacramento County Office of Emergency Services is strongly advising the residents of Tyler Island to evacuate.
- An advisory evacuation for East Walnut Grove has also been issued.

GOVERNOR'S OFFICE OF EMERGENCY SERVICES

SITUATION SUMMARY

2017 Statewide February Winter Storms

State Agencies

Activations

- The State Operations Center (SOC) is activated to level 4.

State/Federal Agency Preparatory Activities:

California Nevada River Forecast Center

- The California-Nevada River Forecast Center is currently at 24-hour staffing through the weekend and will issue four hydrologic forecasts per day.
    - Staffing will be adjusted if conditions change.

Department of Water Resources

- The Department of Water Resources (DWR) Flood Operations Center (FOC) will be activated with an Operational Period of 0600-2200 hours until further notice.
    - A daily briefing will be conducted at 1000 hours until further notice.

Cal OES Law Branch

- The CalOES Law Enforcement Branch continues to monitor weather changes statewide for any law enforcement related impacts as a series of storms descends on California. There are flood warnings and flash flood watches in Northern California as a result of these most recent storms.

Cal OES Fire and Rescue Branch

- The CalOES Fire and Rescue Branch will continue to monitor weather impacts in preparation for any new or renewed concerns.

Critical Infrastructure.

- None reported at this time.

SITUATION SUMMARY

2017 Statewide Winter Storms

Cal OES Coastal Region

- Coastal Region continues to monitor activity throughout the region, including the impacts from storms that brought significant wind, and heavy rains.

Activations

- None at this time

2017 February Winter Storm Proclamations

- None reported during this operation period.

- See Proclamation Slide.

2017 January Winter Storm Proclamations

- See Proclamation Slide.

River Forecast - The following rivers are forecast to meet or exceed Flood stage:
Lake County:

- Clear Lake at Lakeport is forecast to crest above flood state at 9.7 feet the morning of 02/18/17.
    - Potential Impacts: Low lying structures and some main roads around the lake are threatened by the high lake levels.

Monterey County:

- Salinas River at Spreckels is forecast to be above flood state at 23.1 feet the evening of 02/19/17.
    - Potential Impacts: A few residences will begin to flood near the Salinas River along the reach of the gage. River Road will begin to flood near Spreckels.
- Salinas River at Bradley is forecast to crest at 14.0 feet the evening of 02/18/17
    - Potential Impacts: Minor lowland flooding can be expected

River Forecast - The following rivers are forecast to meet or exceed Monitor Stage:

- Del Norte County: Klamath River at Klamath
- Solano County: Sacramento River at Rio Vista

GOVERNOR'S OFFICE OF EMERGENCY SERVICES

SITUATION SUMMARY

2017 Statewide February Winter Storms

Cal OES Inland Region (Continued)

River Forecast - The following rivers are forecast to meet or exceed Flood Stage:
Tehama County:

- Sacramento River at Red Bluff is forecast to be above flood stage at 253.6 feet the evening of 02/16/17.
    - Potential Impacts: The river starts to flow eastward into Sand Slough on the left bank upstream of the gage.
- Sacramento River at Tehama Bridge is forecast to be above flood stage at 216.5 feet the morning of 02/17/17.
    - Potential Impacts: Between 213.0 and 214.0 Feet the county park becomes inaccessible. Lower trailer park slots (temporary slots) start to flood.
- Sacramento River at Vina Woodson Bridge is forecast to crest above flood stage at 184.4 feet the morning of 02/17/17**.**
    - Potential Impacts: Woodson Bridge Park is closed due to flooding. Water is up to the top steps of the recreation center at Driftwood RV Fishing Resort on the east bank of the river.

Glenn County:

- Sacramento River at Ord Ferry is forecast to be above flood stage at 115.2 feet the evening of 02/17/17.
    - Potential Impacts: Design overflow level for M&T, 3BS and Goose Lake Flood Control facilities to divert flood flows into Butte Basin. M&T overflows closing River Road from Ord Ferry Road to Chico River Road. Ord Ferry Road is already closed.

Yolo County:

- Yolo Bypass at Lisbon is forecast to be above flood stage at 22.2 feet the morning of 02/19/17.
    - Potential Impacts: Mound Farms and Senator Outing Duck Club are flooded.

San Joaquin County:

- San Joaquin River at Vernalis is forecast to be above flood at 29.4 feet the afternoon of 02/19/17.
    - Potential Impacts: Severe seepage occurs outside the levees. The area covered by seepage will increase as the river stage rises.

Merced County:

- Merced River at Stevinson is forecast to be above flood stage at 71.6 feet the morning of 02/19/17.
    - Potential Impacts: Flood Stage.

SITUATION SUMMARY

Cal OES 2017 Statewide February Winter Storms Proclamations

Proclamations have been received from the following counties, cities, tribal governments, and special districts as a result of the 2017 Statewide February Winter Storms:

Proclamations for Coastal Region:
- Counties: Humboldt County, Marin County, Napa County, Santa Cruz County, Sonoma County

Proclamations for Inland Region: Counties: Alpine County, Amador County, Lassen County, Mariposa County, Merced County, Modoc County, Shasta County, Sierra County, Siskiyou County, Stanislaus County, Sutter County, Yolo County

Towns/Cities: Town of Truckee

Proclamations for Southern Region:
- None reported.

Cal OES
GOVERNOR'S OFFICE
OF EMERGENCY SERVICES

Key Points

Today

- The first in the series of storm systems will continue to move east and south across the southern Sierra and southern CA today along with strong winds continuing into the afternoon

Friday

- The second and strongest storm will be more widespread across the state, with the greatest impacts expected from heavy rainfall, mountain snows and strong winds across southern CA

Saturday

- Thunderstorms will be possible across southern CA Saturday

Sunday-Wednesday

- Additional storm systems will occur early next week, generally across central and northern CA

Key Impacts

- Minor to moderate flooding along unregulated rivers, streams, roadways, and low-lying areas continues, and will have additional inflow Today-Saturday and again Monday-Wednesday next week.
- Heavy snow will cause hazardous travel over Sierra passes with travel delays likely today and Friday into Saturday, and again Monday through Wednesday next week.
- Winds will be strong enough to potentially create some tree damage and areas of power outages across the north through this afternoon and especially across Southern CA Friday into Friday Night.
- Rockslides and mudslides possible, and even likely in Southern CA along mountain slopes and steep grades during and following periods of heavy rainfall, especially Friday into Friday Night.
- Debris flows are also possible over burn scars with periods of brief heavy rain (greater than 0.50” per hour), especially Friday into Friday night across southern CA

California OES Impact Threat Matrix

Feb 16, 2017 – Feb 22, 2017

Cal OES 2017 Statewide Winter Storms Proclamations

Governor Brown Requests Presidential Major Disaster Declaration Due to January Storms

- Governor Edmund G. Brown Jr. requested a Presidential Major Disaster Declaration for the state to bolster ongoing state and local recovery efforts following January storms that caused flooding, mudslides, erosion, power outages and damage to critical infrastructure across California.
    - Full request can be found here
- Governor Brown also issued an executive order that adds the counties of Amador, Mono and Riverside to the 49 counties already included in the emergency proclamation issued last month due to January storms.
    - Full text of the Executive Order can be found here

Proclamations have been received from the following counties, cities, tribal governments, and special districts as a result of the 2017 January Statewide Winter Storms.

Proclamations for Coastal Region:

- Counties: Alameda County, Contra Costa County, Humboldt County, Lake County, Marin County, Mendocino County, Monterey County, Napa County, San Benito County, San Mateo County, Santa Clara County, Santa Cruz County, Solano County, Sonoma County
- Cities: City of Benicia, City of Gilroy, City of Martinez, City of Oakland, City of Orinda, City of Point Arena
- Tribes: Hoopa Valley Indian Reservation
- Special District: Hidden Valley Lake Community Services District, Lake County

Proclamations for Inland Region:

- Counties: Alpine County, Amador County, Butte County, Calaveras County, El Dorado County, Kern County, Lassen County, Merced County, Nevada County, Placer County, Plumas County, Sacramento County, San Joaquin County, Shasta County, Sierra County, Siskiyou County, Sutter County, Trinity County, Tuolumne County, Yolo County, Yuba County
- Cities: City of Grass Valley, City of Loyalton, City of Nevada City, City of Placerville, City of Portola, City of South Lake Tahoe, Town of Truckee
- Special Districts: Reclamation District 900, Washington Water District

Proclamations for Southern Region:

- Counties: Inyo County, Los Angeles County, Mono County, Orange County, Riverside County, San Diego County, San Luis Obispo County, Santa Barbara County, San Bernardino County
- Cities: City of Duarte, City of Diamond Bar, City of Chula Vista, City of National City, City of Poway, City of Pismo Beach, Town of Mammoth Lakes

Cal OES
GOVERNOR'S OFFICE
OF EMERGENCY SERVICES

WEATHER SYNOPSIS BY REGION

NORTHERN CALIFORNIA

The next Pacific storm to affect Northern California has already produced a few tenths of an inch of rain in far northwest California, with some locations already over half an inch. The snow level is above 7000 ft. SE to SW winds are increasing. Many areas will see gusts of 25-35 mph, and the most wind-prone northern mountain areas will see 50-60 mph gusts, and locally higher. Moderate to heavy rain and high elevation snow will spread inland tonight as the main cold front begins to push in. Once the front passes during the day on Thursday snow levels will drop to 4000 ft in the north and 5500 ft in the south as the precipitation turns to showers and winds diminish. After a brief break Thursday night another storm system will move into Central California early Friday. Rain, with snow levels around 6000 ft will spread north across Northern California during the day on Friday. The heaviest precipitation will be from Plumas and Mendocino Counties south, with snow levels 6000-7000 ft. Showers will continue on Saturday with snow levels dropping to 4000-5500 ft. A colder system on Sunday will produce a few snow showers in the northern mountains. A fourth system similar to the current one will move in Monday and Tuesday. Colder systems are expected to drop in from the north next Wednesday into the weekend and produce scattered light precipitation with low snow levels.

SOUTHERN CALIFORNIA

A strong ridge of high pressure will bring well above normal temperatures today, with mid 50s to mid 60s across the mountains and upper 60s to low 80s in the valleys. Minimum humidity will be mainly between 12% and 25% and winds will be light today. A series of Pacific storms will bring periods of rain to the area Thursday through the end of next week. The first storm will bring showers to Central California starting Thursday morning and to Southern California starting Thursday evening. Most locations across Central California will receive between a quarter inch and an inch of rainfall, while most locations across Southern California will receive less than a quarter inch of rainfall with this first storm. A very strong storm will bring 4 to 8 inches of rainfall to most foothill and mountain locations and between 2 and 4 inches of rainfall to most coastal and valley locations Friday through Saturday morning. The snow level will be around 8,000 feet and then drop to around 6,000 feet Friday night. Scattered showers will fall across the region Saturday afternoon through Monday before another possible strong storm affects the area Tuesday into Wednesday. Periods of strong south to west winds will surface across the area especially just ahead of the two big storms. Temperatures will cool to a little above normal Thursday and then be near to a little below normal Friday through the end of next week.

GOVERNOR'S OFFICE
OF EMERGENCY SERVICES

Mission:
We protect lives and property, build capabilities, and support our communities for a resilient California.

We achieve our mission by serving the public through effective collaboration in preparing for, protecting against, responding to, recovering from, and mitigating the impacts of all hazards and threats.
