Cal OES Daily Situation Report

January 28, 2018

Lake Clementine Dam was built in 1939. Originally, it was created to stop gold mining debris from washing down the North Fork American River. Standing at 155', it holds back Lake Clementine; a beautiful place for recreation and fun. Lake Clementine is a short distance outside of Auburn in Placer County.

SITUATION SUMMARY

2018 January Winter Storm – Mud and Debris Flow (Continued)

Evacuations

- Mandatory: (Approximately 200 residents impacted)
  - Full repopulation occurred on 01/27/18 at 1200 hours, with the exception of the two long-term exclusion zones for Cold Springs/Montecito and San Ysidro.
  - The exclusion zones are open only to residents, business owners and those conducting official business in the area, however a law enforcement escort is required.
  - This affects approximately 200 residents.

Road Closures

- SR 192 remains closed within the mandatory evacuation zone

Critical Infrastructure

- Southern California Gas (SoCal Gas) advises that 1,100 customers are still affected by the gas outage.
- Water Outage
  - Full system restoration is estimated by 01/31/18.
  - Water distribution sites, supported by the American Red Cross (ARC):
    - Montecito Fire Station #2, 2300 Sycamore Canyon Rd., Montecito
    - Montecito Union School, 385 San Ysidro Rd., Santa Barbara
    - Summerland Post Office, 2245 Lillie Ave., Summerland
    - Montecito Water District Headquarters, 583 San Ysidro Rd., Montecito

Health and Medical

- Santa Barbara County Environmental Health has set up a hotline for residents to call to report hazardous debris (805-681-5538).
- Santa Barbara County Public Health is providing free tetanus shots for first responders and the public.
- Per Santa Barbara County Public Health on 01/22/18, due to high bacteria levels, the beach waters listed below will be closed until further notice:
  - Arroyo, Burro, Carpinteria, El Capitan State Beach, Hope Ranch, Goleta Beach, Summerland Beach, Hammond Beach and Leadbetter Beach

SITUATION SUMMARY

2018 January Winter Storm – Mud and Debris Flow (Continued)

Missions

- 2018-SOC-44997: CCC Crews to clear culvert downstream of Upper Santa Monica debris basin. (Coordinating)
- 2018-SOC-44911: Debris staging and sorting area (On Scene)
- 2018-SOC-44859: 4 DWR Hydrologists to assist Santa Barbara County accomplish strategic plan (On Scene)
- 2018-SOC-44836: 3 technical support specialists and using WERT findings in mitigation planning and ID of potential long term engineering solutions (On Scene)
- 2018-SOC-44833: LIDAR Tech Specs (On Scene)
- 2018-SOC-44797: LIDAR mapping assistance (On Scene)
- 2018-SOC-44765: CNG Azusa Armory for temporary secure storage of trailers and vans (On Scene)
- 2018-SOC-44682: Debris Management Site (On Scene)
- 2018-SOC-44651: Caltrans to provide traffic cones and A-Frame barricades (On Scene)
- 2018-SOC-44638: DWR Liaisons to support Debris/Flood Fighting Task Force (On Scene)
- 2018-SOC-44628: Drainage and Creek Clearance (On Scene)
- 2018-SOC-44620: Resources to support debris management (On Scene)
- 2018-FIRE-44642: CAL FIRE (MTO) assigned in support of life safety and rescue efforts (On Scene)
- 2018-FIRE-44635: CAL FIRE (CDF) assigned in support of life safety and rescue efforts (On Scene)
- 2018-Southern-44981: Caltrans Watershed Construction SME
- 2018-Southern-44520: DWR Liaison to report to Santa Barbara EOC (On Scene)

Law Enforcement Mutual Aid

Per the Cal OES LDO as of 01/24/18:

- Santa Barbara County Sheriff's Office (SBCSO) request Law Enforcement Mutual Aid (LEMA) to support the Law Enforcement (LE) efforts due to the mudslide incident in Montecito (2018-LAW-44773).
    - Los Angeles Sheriff's Department (LASD) accepted the mission of 84 personnel (42 vehicles / 2 personnel each) through 01/28/18, for day and night shift.
    - LASD accepted the mission of 40 personnel and 20 patrol vehicles to staff day and night shift from 01/29/18 through 02/05/18.
- The following In-Region resources are deployed in support of Santa Barbara County:
    - UC Santa Barbara PD, Santa Barbara PD, Santa Maria PD, Lompoc PD and CHP.

WEATHER OF CONCERN

Weather of Concern

- A Red Flag Warning is in effect for the mountains and valleys of L.A. and Ventura Counties from 2200 hours through Monday afternoon. Moderate to strong Santa Ana winds will develop as offshore gradients strengthen across the region.
    - Gusty northeast winds will combine with warm, dry conditions and dry vegetation to bring critical fire weather conditions to portions of Southern California.
    - Peak wind gusts with Santa Ana winds are expected to rise to 55 to 65 mph over the mountains, and 40-50 mph over the valleys, especially late Saturday night through Sunday morning across Los Angeles and Ventura Counties.
    - Temperatures will rise into the 80's across the valleys Sunday and Monday, with humidities in the teens and isolated single digits. The warm and breezy conditions will persist through Monday afternoon.

GOVERNOR'S OFFICE
OF EMERGENCY SERVICES

WEATHER SYNOPSIS BY REGION

NORTHERN CALIFORNIA

High pressure will remain in control into mid-week as jetstream plus storm track is deflected north. A weak wave moving into the Pacific NW will briefly flatten the ridge a bit on Tuesday, but no precipitation expected across area. North winds across the valley this morning on the order of 5 to 15 mph have precluded the formation of fog, but could still see a few patches toward daybreak. Weaker winds with subsidence and lingering moisture the next few mornings could lead to more widespread fog development but hard to pinpoint areal coverage at this point. As ridge builds, temperatures will warm several degrees from yesterday`s readings with daytime highs topping out some 5 to 10 degrees above normal through the period.

SOUTHERN CALIFORNIA

High pressure and offshore flow will cause warming through Monday. Gusty Santa Ana winds are expected across much of Los Angeles and Ventura counties today through Monday. Record high temperatures are possible today and Monday. A cooling trend is expected Tuesday and Wednesday as a trough moves into the Pacific Northwest and onshore flow returns. However, temperatures will likely remain above normal through the week.
