Presidential Inauguration, Washington D.C.

President-Elect Donald Trump will be sworn into office as the 45th President of the United States. Numerous opponents of Donald Trump's presidency have planned several nationwide large-scale demonstrations aimed at disrupting the 45th Presidential Inauguration ceremony.

Cal OES Coastal Region

- Cal OES Law Enforcement Branch will have Assistant Chiefs in the San Francisco PD Department Operations Center (DOC) and the Oakland EOC today for region wide protest activity.
    - San Francisco will activate from 1000 to 2000 hours today
    - BART activated at 0700 and will be activated until conditions warrant deactivation

Cal OES Southern Region

- Numerous sources have revealed multiple protests are expected to occur throughout Downtown Los Angeles, through Sunday, 01/22/17.
- Intelligence sources estimate approximately 150,000 people will be demonstrating over the course of the four day period in the Downtown area. While this area falls under the jurisdiction of the Los Angeles Police Department (LAPD), the Los Angeles County Sheriff's Department (LASD) is responsible for providing policing services for several key structures in that area.
- Law enforcement services for these county buildings will be under the jurisdiction of the Los Angeles County Sheriff's Department with building protection to be provided by LASD personnel. Exterior streets and sidewalks will remain under the jurisdiction of the Los Angeles Police Department (LAPD).
- The Emergency Operations Bureau has met with all involved County Bureaus and the LAPD to coordinate all resources used for both the protection of county structures and possible mutual aid request from Operational Area partners.
- The Women's March: Thousands of people are expected in downtown Los Angeles for a rally and march.
- There are a number of other local protests scheduled all weekend.
- Law enforcement and emergency management are monitoring closely.

WEATHER SYNOPSIS BY REGION

NORTHERN CALIFORNIA

The next storm will arrive early Sunday with southerly gusts to 40-60 mph and snow levels near 4000-6000 ft. in heavy precipitations. Snow levels will drop Sunday afternoon to 2500-4000 ft. once the front moves through. Scattered showers will continue later Sunday through early Tuesday in the colder air mass behind the front. The problem of soft, saturated soils will continue to make downed trees possible. Area water courses will again run rather high as well.

At this time it looks like a stretch of mild and dry weather with occasional offshore winds will begin by late Tuesday and last into early February.

SOUTHERN CALIFORNIA

After a break in the rainfall today, the third, and strongest, storm will arrive Sunday. Heavy rain will occur along the central coast prior to daybreak with heavy rain reaching Southern California late Sunday morning. Gusty west winds and intense rainfall can be expected for a 3-5 hour period Sunday during the passage of a cold front. Storm total rainfall from the third system may be 2-5” with the heaviest amounts on south and west aspects of Southern California. This rainfall will likely trigger mud and debris flows near recently burned areas. The snow level will rise to 7,000 feet Sunday. The rainfall should taper to showers for Sunday night through Monday. Cool, windy weather will follow Tuesday. Sunny, drier and warmer weather will return beginning next Wednesday.
