8.3 Magnitude Earthquake, Illapel, Chile

- On Wednesday, 9/16/15, at 1555 hours Pacific Time, a Magnitude 8.3 Earthquake occurred near the coast of central Chile at a depth of 8.1 miles. The earthquake, originally reported as a M7.9 was upgraded after seismologists reviewed addition data and analysis. This was followed by a series of aftershocks in the M5 to M6 range. The National Oceanic and Atmospheric Administration (NOAA) has evaluated the potential for a tsunami impacting the Western United States and has issued a Tsunami Advisory for coastal areas of California from San Onofre State Beach, San Diego County to Ragged Point, San Luis Obispo County. Cal OES and California Geologic Survey are participating in regularly-scheduled conference calls with the National Tsunami Warning Center followed by calls with the County Operational Areas throughout the evening. The calls are intended to ensure current and accurate information is conveyed to local emergency managers.

- The NTWC reports that, based on the earthquake magnitude, location, and style of fault rupture, a tsunami capable of producing strong currents or waves dangerous to persons in or very near the water is expected. Currents may be hazardous to swimmers. Boats, and coastal structures and may continue for many hours after the tsunami arrival.

The Cal OES Earthquake and Tsunami Program Duty Officer will continue to monitor this incident and provide updates as needed.

Proclamations

- A Proclamation from Mariposa County has been received requesting a State of Emergency and a Presidential Declaration, and available financial assistance for Tree Mortality.
- A Proclamation Continuation of the Local Emergency due to diminished fire suppression capability from the City of Canyon Lake in Riverside County has been received.

4.0 Earthquake, San Bernardino, San Bernardino County

On Wednesday, 09/16/15, at 0910 hours, a Magnitude 4.0 Earthquake occurred 7.9 miles SSE of Big Bear Lake in the San Bernardino Mountains. The earthquake occurred at a depth of 11.2 kilometers.
Per the Cal OES Earthquake and Tsunami Duty Officer (EQTSU DO) weak to light shaking was indicated in Southern California north to Lancaster, west to the Riverside-Orange County line, south to the Salton Sea. Some moderate shaking was indicated near the epicenter. Thus far, the main event was followed by one M2.4 aftershock. The California State Geologist advised this event is not out of the ordinary. There are faults in the area capable of producing this type of earthquake. A few minor aftershocks can be anticipated in the range of Magnitude 1-2.
The Cal OES EQTSU DO will continue to monitor seismic activity in the region and provide updates as needed.
The California State Warning Center contacted the San Bernardino County Warning Point who reported no damage or injuries.
DWR reports that inspections of Devil Canyon, Perris Dam, San Bernardino Tunnel South Portal and CA Aqueduct miles 410 to 440 are required and will occur today.

Weather of Concern

- A trough of low pressure developing over the west coast will combine with remnant moisture from former tropical cyclone Linda to bring a chance of rain to Southern California Monday through Wednesday. At this time, it appears that the threat of rain will mainly be focused south of Point Conception, with the greatest threat of rain on Tuesday.
- A High Threat of Flash Flooding for San Bernardino County Mountains, Riverside County Mountains, San Diego County Mountains on 09/16/15. A Moderate Threat of Flash Flooding is reported for San Bernardino County Mountains, Riverside County Mountains, San Diego County Mountains, High Deserts, Coachella Valley, San Diego County Deserts, Inland Empire, San Diego County Valleys on Thursday 09/17/15.

WEATHER

WEATHER SYNOPSIS BY REGION:

NORTHERN CALIFORNIA

A cool, moist weather system is sweeping inland across Northern California today. Many areas will receive at least wetting rain (0.1 inch), and the wettest mountain areas are expected to mostly receive around a half inch. Snow levels will lower to around 7000 ft. The far southern and southeast-most portions of Northern California will have the least amounts of rain, even to the point of zero to less than a tenth of an inch. Some areas will have moderately strong, gusty southerly winds, but relative humidity is expected to be high enough to reduce fire problems due to wind. Temperatures will be well below normal with the warmest Northern California areas near 70. This weather system will pass quickly with clearing skies for a lot of areas tonight with chilly, well below normal overnight lows. Much warmer weather under mostly sunny skies will already be in place Thursday. Warmest inland areas will return to near 80 Thursday. High pressure will return over Northern California Friday and last through the weekend for much drier, warmer conditions. Relatively light north to east winds will develop later Thursday and last into Sunday. This will have significant drying effects in the Bay Area mountains, and for the Sacramento Valley and surrounding foothills in particular. Warmest inland valley areas will be into the mid 90s for the weekend and early next week. Overnight humidity recovery will be very good for a couple of nights everywhere, but the locations favored by the north to east winds will see that benefit quickly disappear. Northern aspects in the mountain areas that receive significant rainfall today will continue to see the highest humidity values, day and night.

SOUTHERN CALIFORNIA

Isolated showers will be possible across Southern California this morning before skies turn partly to mostly sunny over all areas during the afternoon. High temperatures will remain below normal today with readings in the 70s along the coast to the mid-80s in the lower inland valleys. West winds of 15-25 mph with gusts to 35 mph will be possible across the deserts and nearby areas such as the Banning Pass. Tonight, northerly winds of 15-25 mph will develop along the south coast of Santa Barbara County and across the I-5 Corridor. These winds should abate Thursday morning, but similar wind speeds can be expected Thursday night. Friday into the weekend, high pressure over the Great Basin will produce an offshore pressure gradient. While northeast and easterly winds will generally remain under 15 mph, much warmer and drier weather will return by Saturday. Highs will in the 90s in the valleys Saturday, and by Sunday, some valleys and lower foothills will be close to 100 across Southern California. Minimum relative humidity will likely drop to the teens across the mid-slope areas of Southern California Sunday with poor nighttime relative humidity recovery. Across Central California, expect transport winds to return to the east this weekend which will bring smoke from ongoing incidents back into the San Joaquin Valley. The warm and dry weather will last through Monday before some cooling returns Tuesday. Moisture from a developing tropical system may bring some cloudiness and higher humidity back to the region by next Tuesday or Wednesday.

CAL OES 2014 DROUGHT

Cal EOC Incident – 2014 Drought

- The SOC is activated in support of the Drought State of Emergency and continue to monitor the situation.
- The Governor issued Executive Order B-26-14 on 09/19/14, to streamline relief efforts for families with drinking water shortages due to drought, specifically through the California Disaster Assistance Act, to provide temporary water supplies to households without water for drinking and/or sanitation purposes.
- The Governor issued Executive Order B-29-15 on 04/01/15 which announced actions that will save water, increase enforcement to prevent wasteful water use, streamline the state's drought response and invest in new technologies to make California more drought resilient.
- CDAA 2014 Drought Fact Sheet and Frequently Asked Questions provided to Regions for reference and distribution.
- Cal OES Recovery continues to coordinate the Community Impacts Workgroup conference calls. Currently, the calls take place on alternating Wednesdays.
- Cal OES Recovery/Individual Assistance finalized an updated 2015 version of the drought brochure of programs and services for individuals, businesses, farmers, and ranchers. It has been put on the Governor's Drought webpage. State agencies may put the following link to the brochure on their webpage http://ca.gov/drought/pdf/Drought-Assistance-Brochure-2015.pdf
- Cal OES Regions (Inland, Coastal, Southern) collective OA drought call is facilitated by the SOC every Monday at 1100 hours.

Infrastructure

- State Water Resources Control Board (SWRCB) Department of Drinking Water (DDW) Stockton District Office reports that State regulated public water systems in the counties of Amador and Calaveras, have impacts mainly related to power outages, water systems are now utilizing generators. There are no reports of damage at this time. The Calaveras County Local Primacy Agency (LPA) have several systems in the area that are under evacuation. Once evacuation orders are rescinded the LPA will assess the situation. SWRCB DDW staff continues to monitor the incident(s) within their areas of responsibility and report status.
- Per Cal EPA EF 10 Coordinator as of 1400, 09/11/15:
    - SWRCB Division of Drinking Water reached out to local engineers in Calaveras County and determined that the current water system issues were all power related. Portable power is being used to address the issues.
- Per CUEA 1000 09/16/15: Fire is interrupting utilities for 2,536 customers in Calaveras and Amador counties. 5500 assets to assess, with the potential of 500-600 poles and associated hardware that may need replacement.
    - No impact to PG&E Hydro Generation.
    - All five cell towers impacted presently on full portable generation.
    - East Bay Municipal Utilities District reporting no impact to their water system.
- Per Cal OES Public Safety Communications: The communications site Sierra Vista has burned over due to the Butte Fire. State agencies who are in that site are CALFIRE, Department of Transportation (DOT) and California Highway Patrol (CHP). A technician responded to the site to assess the damage.
    - Phone lines and power are down.
    - CALFIRE has a portable repeater being installed at the site. CALFIRE is operational.
    - CHP is using coverage of other sites. CHP is down because the repeater is phone line controlled.
    - DOT is operational.
- Per Cal OES Public Safety Communications: CAL-Fire TCU headquarters in San Andreas is currently being evacuated. PSC has a shop located within that facility. PSC technicians were evacuated out of the facility. A snowcat assigned to the facility was towed out and the test equipment was also removed by the technicians.
- Per the Cal OES Critical Infrastructure Protection (CIP) Division: There are seven CIP identified, state-level, critical infrastructure sites that meet the draft criteria and are within 10 miles of the fire – Amador County EOC, their Department of Public Health main office, Calaveras County EOC, their Department of Public Health main office, the origin of the Mokelumne Aqueduct, the Pardee Dam and Reservoir, and the Jackson Creek Spillway and Dam. The buildings are vulnerable to fire but the two dams and aqueduct are generally less vulnerable to fire. Other infrastructure noted in the 10 mile radius are multiple PSC communications towers, 5 hydro power plants (99, 14, 4.5, 1.4, .23MW), multiple associated substations, multiple transmission lines (230, 115, 80, 60kV, +), and two natural gas lines (12 and 10 inch).

Recovery/Debris Management

Per Cal OES/TAP 09/16/15: The Department of Resources Recycling and Recovery (CalRecycle) and Cal OES have been tasked with supporting Lake, Trinity and Calaveras Counties in the management of debris removal operations. CalRecycle's Incident Management Team (IMT) will be assisting each County to clear the debris, provide certification of cleanup, and track costs for each County on a site-specific basis. As part of the work, CalRecycle is preparing a Debris Removal Operations Plan (Operations Plan) for each of the three affected Counties, which identifies the procedures, and best management practices for undertaking the removal of debris from the residential structures to protect response personnel, the surrounding community, public health, and the environment. Information related to this project was obtained by CalOES, other CalEPA regulatory partners, and local government agencies.

California Department of Toxic Substances Control (DTSC) Emergency Response (ER) will be assessing and removing asbestos and household hazardous waste from homes destroyed by fire in Calaveras Countey. ER is coordinating with Calaveras County Public Works and Environmental Health Departments to begin assessment and removal activities there once the access agreements are obtained from affected property owners. Due to the large number of homes destroyed in the Valley Fire (Lake County), ER proposed to USEPA that they handle assessment and removal activities and ER will cover the transportation and disposal of household hazardous waste and asbestos.

Threat to Waterways, Water Sources, Natural Habitat/Species, State Parks and Historical or Tribal Lands/Assets

- Overall, it appears that the water systems impacted by fires have lost above ground structures and electrical/controls, however, the majority of the systems that have steel tanks appear to be intact and operational. Some water systems have lost connections and will need to modify equipment and/or operations to meet reduced demands when the evacuations are lifted. (Updated 09/16/15 at 1100)
- Anderson Marsh Historic Ranch House was evacuated on 9/14/2015. Cultural Recourses will be collected and moved to a secure location.
- Per EF-8, a number of drinking water systems in Lake County were damaged or disrupted. The State Water Boards Division of Drinking Water is working with the county and has a representative in the Lake County EOC providing direct coordination. **Update 09/15/15** Per State Water Board, in general, power outages have caused the largest problem with drinking water systems and many are running on generators. CUEA is working with the Lake County EOC to restore power. A few systems have been damaged and some are still assessing the damage.

Per Cal OES Tribal:

- A Cal OES Tribal representative has reached out to possible affected tribes and is awaiting a response.

Access and Functional Needs

Local authorities supporting local shelters with nursing, medication acquisition and guidance for refill requests.

Per Cal OES Chief of the Office of Access and Functional Needs (OAFN):

- Chief of OAFN conducted site visits at various shelters and have identified gaps in accessibility. In coordination with the Red Cross, upgrades/improvements are being made including bringing in portable accessible showers, toilets, designation of additional handicap designated parking (and signage), ramps and clearing aisles to make general population areas easier to navigate.

Health and Medical

Per Red Cross:

- Red Cross Integrated Care Team (ICT) has deployed to the Calistoga shelter. ICT is comprised of Disaster Mental Health, Disaster Health Services, Bulk Distribution, water and client assessment. These teams typically go house to house in communities.
- Shelter wrap-around services and supplies are sufficient at this time. Red Cross is continuously monitoring and evaluating to ensure communication occurs early if support needed.

Per EMSA:

- Emergency Medical Services Authority (EMSA) continues to monitor the medical impact from the fires, and remains in constant communication with the Regional Disaster Medical Health Specialists (RDMHS), and Medical and Health Operational Area Coordinator (MHOAC), as well as the California Department of Public Health (CDPH). As of 09/14/2015, Ambulance Mutual-Aid has been provided to South Lake County from American Medical Response (AMR). Mutual-Aid ambulances are stationed at Whispering Pines and South Lake County Fire Station 62 (both providing support to rescuers).
- Local fire and emergency medical services resources are fully engaged. CAL FIRE requested and received approval for 2 private ambulances in support of operations through mutual aid.

Per CDPH:

- An Intermediate Care Facility/Developmentally Disabled (ICF-DD) in Kelseyville is operating at normal capacity.

Adults in Community Transitions,
4795 Gaddy Lane
Kelseyville, CA 95451

- St. Helena Hospital is reporting five (5) patients with smoke inhalation injuries. More than 100 Hospital staff lives in Middletown or Hidden Valley communities and may not be able to staff the Hospital. St. Helena Hospital is helping to support displaced staff.

- Per CDPH: there are no CDPH licensed healthcare facilities in the Hidden Valley Lake area. The nearest facility is Clearlake.

- Cal OES IA reached out to the California Department of Health Care Services to assess if the need for mental health services is beyond the capacity of the local level to respond. The department is reaching out to the county local mental health to determine if the disaster mental health needs of the communities are beyond their ability to respond. It is anticipated that mental health needs will rise as re-entry begins.

Infrastructure

- Per the California Joint Incident Briefing (JIB) report (09/14/15 at 1400) Three (3) cooling towers at Calpine Geysers facilities have been damaged, however, no impacts reported to the grid. Incident Command Post (ICP) has been set up at the Lake County Fairgrounds. A Damage Inspection Team has started the survey of damaged and destroyed buildings. A threat exists for critical infrastructure of radio towers, state Intercom radio system and numerous law enforcement vaults and towers. **Update per CUEA 09/15/15 0842**, There are no impacts from the Geyser Geothermal Plant's damage overall energy reliability. PG&E has deployed 400+ employees in the area setting poles and strand. They may also call up additional crews from out of the area to help re-establish power

- Per California Utilities Emergency Association (CUEA) (09/16/15 at 0941):
    - PG&E reported 7,257 customers affected and impacting Lake, Mendocino, Sonoma and Napa counties.
    - PG&E has opened their corporate EOC, along with local EOC's in Central Valley and Northern Region to support fire response.
    - PG&E presently does not have a number of assets impacted, but anticipates 70-80% of all assets in Middletown are damaged.
    - Two (2) AT&T Satellite Cell on Light Truck (SATCOLT), and one (1) Verizon SATCOLT has deployed to Middletown to restore wireless service.
        - **Update 09/16/15 per PSC:** One (1) AT&T SATCOLT has been deployed to the Napa Valley Fairgrounds in Calistoga.
    - In addition, AT&T is working to get a microwave feed to the AT&T site in Cobb Mountain and also working to clear the roads for CAL FIRE and PG&E.
- Per Public Safety Communications (PSC) (09/14/15 at 0851), Cobb Mountain which is a multi-agency radio facility was burned over and is still operational. PSC is working with CAL FIRE to get access to the site to conduct a site assessment. **Update 09/16/15 0900 per PSC:** AT&T's Cobb Mountain and Middletown Central Office isolations 9-1-1 outage. No estimate of restoration at this time. **Update 09/16/15 1230 per PSC**: AT&T Teams are currently at a standstill to get a new path established to restore service due to weather. Technicians have also discovered additional damage to the Middletown office and are accessing the impact. Per PSC (09/14/15 at 0851), Seigler Mountain is currently in the path of the fire. CAL FIRE crews are onsite for protection.
- Per the State Water Resources Control Board, the Callayomi County Water District's (serving Middletown) office and treatment plant were on fire the evening of 09/12/15. **Update 09/15/15** Per CalEPA, the administrative office has burned, however, the treatment plant is functional and functioning on backup generators. In addition, the Valley Fire Water Systems are currently performing damage assessments
- The Cobb Area County Water District has one source out of five operational. Staff is waiting for clearance to assess the damage. The service area is currently evacuated.
- Ten (10) PG&E geothermal power plants ranging in capacity from 22MW-120MW are within one mile of the current burn area, as well as their associated substations and transmission lines.
- Five (5) Public Safety Communications (PSC) tower sites within one mile of the current burn area.
- Per PSC (09/14/15 at 0851) AT&T has found path to place fiber and copper cable. **Update 09/15/15 per PSC**: Construction is onsite working with engineers to reroute service until the 5 mile section of cable can be repaired. They are also beginning to re-look at a microwave salutation at Cobb Mtn. There is no estimated return of service at this time. They are looking at the replacement of 5 miles each of fiber and copper cables.
- Three (3) cell towers are offline due to the power situation, no access to them presently. Limited impact to cell service at this time.

Recovery Activities:

- Per Cal EOC EF-10 (09/14/15 updates), the Department of Toxic Substances Control is coordinating with US EPA Region IX Emergency Response regarding support for hazardous waste activities following post-fire activities in impacted counties. Due to the large numbers of structures in Lake County, additional assistance will likely be requested.
- The Department of Resources Recycling and Recovery (CalRecycle), in coordination with Cal OES have been tasked with supporting Lake, Trinity and Calaveras Counties in the management of debris removal operations.
- CalRecycle's Incident Management Team (IMT) will be assisting each County to clear the debris, provide certification of cleanup, and track costs for each County on a site-specific basis.
    - CalRecycle is preparing a Debris Removal Operations Plan (Operations Plan) for each of the three affected Counties, which identifies the procedures, and best management practices for undertaking the removal of debris from the residential structures to protect response personnel, the surrounding community, public health, and the environment. Information related to this project was obtained Cal OES, other CalEPA regulatory partners, and local government agencies.
    - CalRecycle's IMT will utilize state and local employees through Cal OES mission tasking and contract support to fulfill its project management duties. CalRecycle IMT will work with each County's licensed environmental contractors and consultants to begin the evaluation and removal process from debris site subsequent to obtaining Right-of-Entry Permits from the individual property owners.
    - The California Department of Education has provided a list of closed schools and has forwarded them to CalRecycle. A list for Lake County is pending.
    - CalRecycle has requested for assistance in operations planning from CalOSHA for the health and safety component of debris removal operations. CalOHSA has made available a staff member of the DOSH Emergency Response team. Onsite support may be available for a limited basis.
