Cal EOC Incident – 2014 Drought

- SOC / Inland REOC remains activated in support of 2014 Drought

Weather of Concern

A moist and unstable air mass will continue to bring scattered showers across Los Angeles County through tonight. The best chance of showers will be focused across eastern portions of the County, especially the San Gabriel Mountains and San Gabriel Valley. Some of these showers could bring brief heavy downpours capable of local roadway flooding especially in low lying areas and locations with poor drainage. Portions of the LA Basin will likely be impacted by these scattered showers. Shower activity will shift southward as the day progresses, with isolated showers over Orange County and more persistent showers over Riverside, San Bernardino, and San Diego Counties through early this evening. Shower activity will become isolated for all 4 counties overnight through early Wednesday morning.
There are no Flood Advisories, Watches, or Warnings in effect at this time.

WEATHER

WEATHER SYNOPSIS BY REGION:

NORTHERN CALIFORNIA

Today will be in between weather systems with variable cloudiness and a small chance of showers. Another moist weather system will move ashore and inland Wednesday to bring fairly widespread wetting rain and even higher elevation snow to much of Northern California. The far south and southeast areas will be the driest in Northern California. An inch or more of rain may fall in the northwestern mountain areas that see graphically enhanced precipitation, such as the King Range and Smith River area. Relatively cool, moist conditions will linger Thursday, but any lingering rain should be near the Oregon border. High pressure will take over the weather pattern Friday with much warmer and drier weather quickly returning for the weekend. A bit cooler weather will return early next week as a weak trough moves into the region. Some gusty southerly winds will accompany Wednesday's weather system, but RH should be high enough to keep fuel conditions from being severe. North to east winds will develop Thursday night and continue into Sunday morning for some dry daytimes and mild overnights in the favored areas. The north to east winds will also quickly dry out some areas that don't receive much of the upcoming rain. Temperatures will remain on the order of 15-25 degrees below normal for the next 2 days with afternoon highs within a few degrees of 70 for the warmer inland valleys. Thursday will be markedly warmer at the start of a warming trend that will continue into Sunday. Seasonable temperatures will return early next week. Humidity will be on the rise for a few days, but will also begin to drop by the end of the week and through the weekend. The southern areas without a lot of rain will quickly dry out under the north to east winds over the weekend. Overall, however, overnight relative humidity recoveries should be higher than they have been, except in the north to east wind areas this weekend.

SOUTHERN CALIFORNIA

A trough dropping into California today will help draw abundant low level moisture into the region resulting in showers for much of the area today and tonight. The precipitation will mainly be a result of the moisture interacting with upslope flow so rainfall totals will be greatest across the higher terrain. Precipitation amounts will generally be 1/4 to 3/4 of an inch across the coastal and valley areas south of Point Conception, with over an inch along the south and west facing slopes extending from Los Angeles County southward to San Diego County. Further north, showers will end across the Central Coast today but will continue in the Sierra. Today will be the coolest day of the week with daytime highs around 10 degrees below normal for this time of year. It will be windy across the deserts and the higher elevations of the Sierra with the strongest winds expected to occur across the Antelope Valley, the Tehachapi's, and the Mojave Desert. Winds in these areas will be southwest 20-30 mph with gusts into the mid-40s. It will be breezy elsewhere throughout the region especially across the Santa Clarita Valley and along the Central Coast. The moisture and associated showers will depart the region Wednesday but another trough dropping into the state will keep skies mostly cloudy over the Sierra. Temperatures on Wednesday will warm by a couple of degrees but most areas will still remain below normal. It will continue to be windy across the mountains and deserts on Wednesday but speeds will be lower compared to today. A broad trough will linger across the region during the latter part of the work week with daytime highs expected to warm by a few degrees each day. Winds will diminish and will become more northwesterly over the mountains and deserts Thursday and Friday, but the Santa Ynez Mountains will see gusty northerly winds developing at night both days. Much warmer and drier weather is expected this weekend accompanied by light offshore flow.

Access and Functional Needs/ Health and Medical

- American Legion Ambulance staffing 9 units (both Amador and Calaveras Counties). They have implemented emergency staffing through the incident. They will staff (9) 24 hour units through 09/11/15 and will staff 8 units 09/12 – 09/13/15.
- Cal OES Individual Assistance (IA) is working with Department of Health Care Services regarding mental health needs in the affected communities. The department is reaching out to the county local mental health to determine if the disaster mental health needs of the communities are beyond their ability to respond. It is anticipated that mental health needs will rise as re-entry begins.
- Calaveras County: Avalon Health Care San Andreas (Skilled Nursing Facility): Update on 9/12/15 at 1201 hours from Region IV MHOAC (designee). Air quality remains good. Met with the site manager and the facility has no immediate needs. The facility transferred 12 at-risk patients yesterday leaving the current census of 71.Resources are available if evacuation is necessary. Site maintenance had procured 10 additional HEPA filters which should be on-site 9/12/15. **Update 9/15/15 1730 hours,** Per Calaveras County Public Health, facility is fully operational and all evacuated patients have returned.
- Mark Twain Medical Center (MTMC): Update 9/12/15 1201 hours from Medical Health Operational Area Coordinator, Calaveras, Region IV. Transferring 7 patients to outlying facilities due to poor air quality within the facility. All transfers to be performed by American Legion with no assistance needed. There was an HVAC malfunction which allowed outside air to be circulated within the facility. Problem mitigated and new filters installed. Air quality has improved significantly over the 2 hours since the mitigation. After the transfer of these 7 patients, the MTMC census of Admitted patients will be 0 (zero). Update 9/13/15 1131 hours, Mark Twain Hospital transferred their remaining 4 admitted patients and closed admissions. The patients were transferred to St. Josephs in Stockton. One patient remained due to special health care needs. Mark Twain Hospital will not admit any patients until air quality monitoring can be established. If the Hospital cannot obtain air monitoring equipment, EMSA will submit a resource request to the Region. **Update 9/15/15 1128 hours** per EMSA, Mark Twain Hospital: Facility is open and admitting patients. Elective surgeries and Pulmonary Rehabilitation have been cancelled for today, continuing to evaluate. Medical clinics in Copperopolis and Arnold are closed due to staff affected by the fire. The facility employees are developing a list of volunteers to visit established shelters to provide RN and Prescription refill support. No needs at this time.
- Amador County: Sutter Amador Hospital (General Acute Care Hospital): Update 9/11/15 2030 hours from MHOAC, (designee) Region IV Fire continues to impact the region with widespread growth affecting air quality. No issue or immediate need at the moment. Hospital environment safe and no complaints of increase in respiratory issues. Air quality inside the hospital is good. They are prepared for evacuation if needed and continue to maintain their census by acuity. All clinical units are open. Only emergency surgeries are being performed with 2 scheduled for Saturday. There is concern about staff and their families who have been evacuated. EAP services have been brought in for employees and their families. Hospital ICS continues to operate with regular updates. Expecting shipment of Albuterol tomorrow to pharmacy.
- 09/13/15 at 0800 hours, Calaveras County continues to perform welfare checks on known persons that have access and functional needs in the West Point and Railroad Flat areas.

Infrastructure

- State Water Resources Control Board (SWRCB) Department of Drinking Water (DDW) Stockton District Office reports that State regulated public water systems in the counties of Amador and Calaveras, have impacts mainly related to power outages, water systems are now utilizing generators. There are no reports of damage at this time. The Calaveras County Local Primacy Agency (LPA) have several systems in the area that are under evacuation. Once evacuation orders are rescinded the LPA will assess the situation. SWRCB DDW staff continues to monitor the incident(s) within their areas of responsibility and report status.
- Per Cal EPA EF 10 Coordinator as of 1400, 09/11/15:
    - SWRCB Division of Drinking Water reached out to local engineers in Calaveras County and determined that the current water system issues were all power related. Portable power is being used to address the issues.
- Per CUEA at 0930 hours on 09/15/15, Butte Fire is affecting 4,500 customers. Impacting Calaveras and Amador Counties. 5500 assets to assess, with the potential of 500-600 poles and associated hardware that may need replacement.
    - No impact to PG&E Hydro Generation.
    - All five cell towers impacted presently on full portable generation.
    - East Bay Municipal Utilities District reporting no impact to their water system.
- Per Cal OES Public Safety Communications: The communications site Sierra Vista has burned over due to the Butte Fire. State agencies who are in that site are CALFIRE, Department of Transportation (DOT) and California Highway Patrol (CHP). A technician responded to the site to assess the damage.
    - Phone lines and power are down.
    - CALFIRE has a portable repeater being installed at the site. CALFIRE is operational.
    - CHP is using coverage of other sites. CHP is down because the repeater is phone line controlled.
    - DOT is operational.
- Per Cal OES Public Safety Communications: CAL-Fire TCU headquarters in San Andreas is currently being evacuated. PSC has a shop located within that facility. PSC technicians were evacuated out of the facility. A snowcat assigned to the facility was towed out and the test equipment was also removed by the technicians.
- Per the Cal OES Critical Infrastructure Protection (CIP) Division: There are seven CIP identified, state-level, critical infrastructure sites that meet the draft criteria and are within 10 miles of the fire – Amador County EOC, their Department of Public Health main office, Calaveras County EOC, their Department of Public Health main office, the origin of the Mokelumne Aqueduct, the Pardee Dam and Reservoir, and the Jackson Creek Spillway and Dam. The buildings are vulnerable to fire but the two dams and aqueduct are generally less vulnerable to fire. Other infrastructure noted in the 10 mile radius are multiple PSC communications towers, 5 hydro power plants (99, 14, 4.5, 1.4, .23MW), multiple associated substations, multiple transmission lines (230, 115, 80, 60kV, +), and two natural gas lines (12 and 10 inch).

Threat to Waterways, Water Sources, Natural Habitat/Species, State Parks and Historical or Tribal Lands/Assets

- Anderson Marsh Historic Ranch House was evacuated on 9/14/2015. Cultural Recourses will be collected and moved to a secure location.
- Per EF-8, a number of drinking water systems in Lake County were damaged or disrupted. The State Water Boards Division of Drinking Water is working with the county and has a representative in the Lake County EOC providing direct coordination. **Update 09/15/15** Per State Water Board, in general, power outages have caused the largest problem with drinking water systems and many are running on generators. CUEA is working with the Lake County EOC to restore power. A few systems have been damaged and some are still assessing the damage.

Per Cal OES Tribal:

- A Cal OES Tribal representative has reached out to possible affected tribes and is awaiting a response.

Access and Functional Needs

Per Cal OES Chief of the Office of Access and Functional Needs (OAFN):

- Chief of OAFN conducted site visits at various shelters and have identified gaps in accessibility. In coordination with the Red Cross, upgrades/improvements are being made including bringing in portable accessible showers, toilets, designation of additional handicap designated parking (and signage), ramps and clearing aisles to make general population areas easier to navigate.

Health and Medical

Per Red Cross:

- Red Cross Integrated Care Team (ICT) has deployed to the Calistoga shelter. ICT is comprised of Disaster Mental Health, Disaster Health Services, Bulk Distribution, water and client assessment. These teams typically go house to house in communities.
- Shelter wrap-around services and supplies are sufficient at this time. Red Cross is continuously monitoring and evaluating to ensure communication occurs early if support needed.

Per EMSA:

- Emergency Medical Services Authority (EMSA) continues to monitor the medical impact from the fires, and remains in constant communication with the Regional Disaster Medical Health Specialists (RDMHS), and Medical and Health Operational Area Coordinator (MHOAC), as well as the California Department of Public Health (CDPH). As of 09/14/2015, Ambulance Mutual-Aid has been provided to South Lake County from American Medical Response (AMR). Mutual-Aid ambulances are stationed at Whispering Pines and South Lake County Fire Station 62 (both providing support to rescuers).
- Local fire and emergency medical services resources are fully engaged. CAL FIRE requested and received approval for 2 private ambulances in support of operations through mutual aid.

Per CDPH:

- An Intermediate Care Facility/Developmentally Disabled (ICF-DD) in Kelseyville is on alert for potential evacuation (6 individuals affected) to a Lakeside facility.

Adults in Community Transitions,
4795 Gaddy Lane
Kelseyville, CA 95451

- St. Helena Hospital is reporting five (5) patients with smoke inhalation injuries. More than 100 Hospital staff lives in Middletown or Hidden Valley communities and may not be able to staff the Hospital. St. Helena Hospital is helping to support displaced staff.

- Per CDPH: there are no CDPH licensed healthcare facilities in the Hidden Valley Lake area. The nearest facility is Clearlake.

Infrastructure

- Per the California Joint Incident Briefing (JIB) report (09/14/15 at 1400) Three (3) cooling towers at Calpine Geysers facilities have been damaged, however, no impacts reported to the grid. Incident Command Post (ICP) has been set up at the Lake County Fairgrounds. A Damage Inspection Team has started the survey of damaged and destroyed buildings. A threat exists for critical infrastructure of radio towers, state Intercom radio system and numerous law enforcement vaults and towers.

- Per California Utilities Emergency Association (CUEA) (09/15/15 at 1026):
    - PG&E reported 7,200 customers affected and impacting Lake, Mendocino, Sonoma and Napa counties.
    - PG&E has opened their corporate EOC, along with local EOC's in Central Valley and Northern Region to support fire response.
    - PG&E presently does not have a number of assets impacted, but anticipates 70-80% of all assets in Middletown are damaged.
    - AT&T has deployed a Satellite Cell on Light Truck (Sat COLT) to Middletown which has restored wireless service. In addition, AT&T is working to get a microwave feed to the AT&T site in Cobb Mountain and also working to clear the roads for CAL FIRE and PG&E.
- Per Public Safety Communications (PSC) (09/14/15 at 0851), Cobb Mountain which is a multi-agency radio facility was burned over and is still operational. PSC is working with CAL FIRE to get access to the site to conduct a site assessment.
- Per PSC (09/14/15 at 0851), Seigler Mountain is currently in the path of the fire. CAL FIRE crews are onsite for protection.
- Per the State Water Resources Control Board, the Callayomi County Water District's (serving Middletown) office and treatment plant were on fire the evening of 09/12/15. The District believes the building, all records and treatment plant have been destroyed by the fire. The service area of Middletown is currently evacuated.
- The Cobb Area County Water District has one source out of five operational. Staff is waiting for clearance to assess the damage. The service area is currently evacuated.
- Ten (10) PG&E geothermal power plants ranging in capacity from 22MW-120MW are within one mile of the current burn area, as well as their associated substations and transmission lines.
- Five (5) Public Safety Communications (PSC) tower sites within one mile of the current burn area.
- Per PSC (09/14/15 at 0851) AT&T has found path to place fiber and copper cable, however due to safety concern through the evening they will return at 8:00AM PST and resume work with fiber and copper cables. They are also beginning to re-look at a microwave salutation at Cobb Mtn. There is no estimated return of service at this time. They are looking at the replacement of 5 miles each of fiber and copper cables.
- Three (3) cell towers are offline due to the power situation, no access to them presently. Limited impact to cell service at this time.
