FIRE ACTIVITY

Cal OES Fire Preparedness Levels		
National	**Northern California**	**Southern California**
Preparedness Level 1	**Preparedness Level 4**	**Preparedness Level 3**
	Multi-Agency Coordination System MACS Mode: 3	**Multi-Agency Coordination System MACS Mode: 3**

Please note: The National and Regional Preparedness Levels are maintained by the National Multi-Agency Coordination (MAC) Group and are separate from Cal OES activation levels.

Cal OES EMAC Missions

- **2018-SOC-53295:** California requested 100 Engines for 20 Strike Teams or Task Forces (Preferably Type 1 or 3) and sent a private blast to 9 States in the following FEMA Regions: XI, XIII, IX, X. The resources from the following states are currently in California: Idaho, Montana, New Mexico, Oregon, Texas, Utah, and Washington. A continual assessment of resource needs is on-going. If conditions change or resources needs are not met, California will send additional private broadcasts to additional EMAC States.
    - Oregon - 85 engines (assigned to Camp Fire)
    - Washington - 25 engines (demobed – in travel status)
        - 10 engines (reassigned to CA-CNR-000045 AEU (Amador-El Dorado Unit) staging)
        - 10 engines (reassigned to CA-CNR-000045 NEU (Nevada-Yuba-Placer Unit) staging)
    - Utah - 26 engines (assigned to Woolsey)
    - New Mexico - 7 engines (assigned to Woolsey)
    - Idaho - 6 engines (assigned to Woolsey)
    - Montana - 20 engines (assigned to Woolsey)
    - Texas - 55 engines (assigned to Woolsey)
- **2018-SOC-53946:** A forensic team of 4 people, from Nevada, is on-scene providing support to Butte County.
- **2018-SOC-54345:** California requested Individual Assistances Subject Matter Experts to provide assistance in Northern and Southern California.
- In addition, the National Guard is providing 7 personnel and equipment to conduct aerial damage assessment in Butte County.
- Currently, California is seeking Public Assistance Resource Coordinators to assist survivors in Northern and Southern California.

WEATHER OF CONCERN

Northern California

- Red Flag Warning tonight and Sunday for portions of interior northern California due to locally gusty northeast wind and low humidity.
    - Generally light winds today, but locally gusty northeast to east winds return this evening into Sunday resulting in critical fire weather conditions across portions of the western slopes of the northern Sierra.
    - A pattern change is likely by the middle of next week which will bring increased Relative Humidity (RH) and a chance of precipitation.
- The San Joaquin Valley Air Pollution Control District will keep the Air Quality Alert in effect due to smoke impacts from surrounding wildfires for San Joaquin, Stanislaus, Merced, Madera, Fresno, Kings, Tulare, and valley portion of Kern counties.
    - This Air Quality Alert is in effect until the fires area extinguished.

Southern California

- There is no weather of concern.

OF EMERGENCY SERVICES

Key Points

11/17/18 - 11/23/18

Saturday-Sunday

- Widespread poor air quality due to smoke
- Critical fire weather conditions Saturday Night and Sunday for the northern Sierra foothills from 1000-3000 feet. Areas of northeast to east winds up to 15 mph with gusts to 30 mph. Local gusts up to 40-50 mph over ridges and through favorably oriented canyons, especially the Feather River drainage including the Camp Fire. Winds will gradually decrease by Sunday afternoon.
- Dry conditions continue statewide

Monday-Tuesday

- Widespread poor air quality due to smoke
- Dry conditions continue statewide

Wednesday-Friday

- Periods of rain and mountain snow mainly across central and northern CA. Southern CA may see localized heavy precipitation but confidence is lower there.
- Snow levels will be around 5500-6500 feet across central and northern CA and 6000-7000 feet across southern CA
- Some rain may be heavy at times and may cause debris flow concerns over recent burn scars. Exact amounts and specific locations for the heaviest rain uncertain at this time.

California Weather Impacts

No Impacts | Minimal Impacts | Moderate Impacts | Severe Impacts

Inland and Coastal Regions Summary

- Widespread poor air quality due to smoke will continue through Tuesday

- Critical fire weather conditions Saturday Night and Sunday for the northern Sierra foothills from 1000-3000 feet. Areas of northeast to east winds up to 15 mph with gusts to 30 mph. Local gusts up to 40-50 mph over ridges and through favorably oriented canyons, especially the Feather River drainage including the Camp Fire. Winds will gradually decrease by Sunday afternoon.

- Periods of rain and mountain snow mainly across central and northern CA Wednesday through the rest of the week. Snow levels will be around 5500-6500 feet. Some rain may be heavy at times and may cause debris flow concerns over recent burn scars. Exact amounts and specific locations for the heaviest rain uncertain at this time.

Southern Region Summary

- Widespread poor air quality due to smoke will continue through Tuesday

- Periods of rain and mountain snow possible starting Wednesday and through the rest of the week. Snow levels will be around 6000-7000 feet. Some rain may be heavy at times and may cause debris flow concerns over recent burn scars. Exact amounts and specific locations for the heaviest rain uncertain at this time.

WEATHER SYNOPSIS BY REGION

NORTHERN CALIFORNIA

- High Risk Western Cascade-Sierra Slopes tonight and Sunday for Gusty NE Winds and Low Relative Humidity (RH)
- Very dry conditions to continue through Tuesday
- High pressure will continue to produce warm, dry conditions through Tuesday.
- N-NE winds from the western Cascade-Sierra slopes to the Coast Range tonight through midday Monday, peaking tonight/early Sunday with gusts to 25-35 mph and locally higher in wind-prone spots on the western Cascade-Sierra slopes
- Gusts to 25 mph Sacramento Valley and Foothills to the Coast Range tonight and early Sunday.
- Afternoon RH 8-20% through Tuesday. Poor overnight recovery (12-35%) on mid and upper slopes west of the Cascade-Sierra crest.
- Afternoon high temperatures 5-10 degrees above normal. Warmest inland areas mostly in the upper 60s and lower 70s. Frost and freezing morning low temps possible in low spots.
- Onshore flow, deeper marine layer and higher RH developing late Tuesday, with a chance of widespread rain and high elevation snow beginning Wednesday and further wet weather systems into the following weekend.

SOUTHERN CALIFORNIA

- A quiet weather pattern is expected through the weekend. A pair of troughs will bring cooler weather and a chance of rain by the second half of the week.
- High temperatures will remain slightly above normal through Monday with highs in the 70s in the valleys and foothills to the 50s in the mountains below 7,000 feet. Readings will drop 8-12 degrees next Wednesday through the end of the week.
- Local east winds of 5-15 mph will be possible across the Banning Pass and Santa Ana Canyon Sunday and Monday. Otherwise, winds will be light through next Wednesday. No strong offshore winds are expected during the next 7-10 days.
- Minimum RH will drop into the 10-15% below 5,000 feet. Expect afternoon readings to climb into the 15-25% range over the weekend.
- There will be a chance of light rain in Central California next Wednesday night and across the rest of the area Thursday into Friday. Precipitation amounts are expected to remain light.
