WEATHER KEY POINTS

08/22/21 - 08/28/21

Sunday-Tuesday

- Locally breezy winds are forecast for northern California primarily in the mountains, but winds will be much lighter than Saturday
- In the Antelope Valley and LA County Mountains, gusty southwest to west winds are expected with gusts generally in the 25 to 35 mph range. Isolated gusts of 40 to 45 mph are possible.
- Dry weather is forecast for the majority of the state through first half of the week
- Periods of thicker wildfire smoke will remain over much of northern and central California, providing reduced visibility at times as well as poor air quality

Wednesday-Saturday

- High pressure will return mid to late this week, bringing warming temperatures to the state
    - Moderate heat impacts will develop towards the middle to late part of the week, initially for southern areas, then expanding north into the Central Valley
- Across southern California, relative humidity recoveries are expected to be very poor by Wednesday night, with temperatures locally exceeding 100 degrees by Wednesday across warmest inland areas
    - Heat should peak on Thursday and Friday with highs in the 105 to 107 degree range.
- Elevated to brief critical fire weather conditions are likely across interior southern California from Tuesday through Saturday due to the hot and very dry conditions combined with locally gusty onshore winds and critically dry fuels. In the Antelope Valley and nearby foothills, gusts between 20 and 30 mph with isolated gusts to 40 mph in the foothills are anticipated.
- The next chance for any wetting, monsoonal rain across southeastern California will be next weekend at the earliest
