# MODULE 10 - AIR OPERATIONS TEST

1. List four kinds of incidents which typically use aviation resources.
2. Prior to activation of the Air Operations Branch, management of air operations is the responsibility of the: \_\_\_\_\_.
3. All incidents using aircraft require that an Air Operations Branch be established.  
 True  
 False
4. Name the two primary supervisory positions that can be activated under the Air Operations Director.
5. Helibase/helispot operations are the responsibility of the:  
 Air Support Group  
 Air Tactical Group
6. Preparation and dissemination of the Air Operations Summary Worksheet (ICS 220) is the responsibility of the \_\_\_\_\_.

7. When completed, the Air Operations Summary Worksheet (ICS 220) is disseminated to which of the following: (check two)

- Procurement Unit
- Air Support Group
- Information Officer
- Division Supervisors
- Fixed-wing Bases
- Time Unit

8. The position at the incident with primary responsibility for liaison with fixed-wing air bases is the \_\_\_\_\_.

9. Supervision of airborne helicopters and fixed-wing tactical operations is the responsibility of the \_\_\_\_\_.

10. Check four factors which determine the location of a helibase:

- Room to expand
- Adequate and accessible for supplies
- Proximity to Fixed-wing Bases
- Capability for 24-hour operations
- Flight routes not over residential or restricted areas.

11. The responsibility for requesting the FAA declaration of Temporary Flight Restrictions is assigned to:

- Air Operations Branch Director
- Tactical Air Supervisor
- Incident Commander
- Any Division/Group Supervisor

12. The Air Tactical Group Supervisor and the Air Support Group Supervisor are both always ground based.

\_\_\_\_\_ True

\_\_\_\_\_ False

13. Temporary Flight Restrictions restrict all flights in a designated air space except those participating in hazard relief activities.

\_\_\_\_\_ True

\_\_\_\_\_ False

14. Name the two coordinator positions which, if activated, will report to the Air Tactical Group Supervisor.

15. All air operations at an incident include the Helicopter Coordinator and the Air Tanker/Fixed-wing Coordinator position.

\_\_\_\_\_ True

\_\_\_\_\_ False

16. More than one Helicopter or Air Tanker/Fixed-wing Coordinator may be assigned to an incident.

\_\_\_\_\_ True

\_\_\_\_\_ False

17. The Helicopter Coordinator and Air Tanker/Fixed-wing Coordinator are always airborne.

\_\_\_\_\_ True

\_\_\_\_\_ False

18. Name three major functions performed at helibases.

19. Locations for helibase and helispot operations are determined by the Air Operations Director and the \_\_\_\_\_.

20. List five positions that, if activated, will report to the Helibase Manager.

21. Ensuring adequate resources at the helibase is the responsibility of the \_\_\_\_\_.

22. Pilots should be solicited for input regarding helibase operations.

\_\_\_\_\_ True

\_\_\_\_\_ False

23. The Helispot Manager reports to the:

\_\_\_\_\_ Helicopter Coordinator

\_\_\_\_\_ Air Support Supervisor

\_\_\_\_\_ Air Operations Branch Director

\_\_\_\_\_ Helibase Manager

\_\_\_\_\_ Air Tactical Group Supervisor

24. Name three potential hazards or problems that must be evaluated at helispot locations.
