WEATHER OF CONCERN

Weather of Concern
• A Red Flag Warnings are currently in effect for northwest California. Flash flooding and thunderstorms could impact Northern California through Tuesday in the afternoons.

• Active Weather Warnings, Watches and Advisories by County:
  • https://alerts-v2.weather.gov/counties/CA
WEATHER SYNOPSIS BY REGION

NORTHERN CALIFORNIA

*** Scattered Thunderstorms with Moderate Rainfall near the Higher Terrain Daily through Thursday ***
*** Drier with more Wind from the Cascade-Sierra Crest East Beginning Friday, Increasing the Chance of Holdover Fires ***

Low pressure near the northern CA coast will continue to pull moist unstable monsoon moisture northward into the North Ops region. Temperatures will be near normal with fairly high humidity. Showers and thunderstorms will mainly occur near the higher terrain, from Lake County north in western areas, from northern Shasta County north in the central areas, and all areas in the east, especially from the Cascade-Sierra crest east. On Thursday showers and thunderstorms will mainly be confined to far northern and far eastern areas. A direct hit from a thunderstorm could yield 0.50 inches of rainfall, but dry strikes and new ignitions are always possible. Outflow winds from any storms could reach 30-40 mph and would affect fire behavior and suppression activities on any nearby fires. This pattern will continue the active Initial Attack situation and elevated potential for significant fires, but due to the higher RH and potential rainfall this event remains below High Risk criteria.

On Friday and Saturday the low will move off to the NE and thunderstorm chances will be minimal and only near the OR state line. Afternoon S-W winds will begin to increase from the Cascade-Sierra crest east as humidity gradually drops, increasing the chances for holdover fires becoming more active and spreading.

SOUTHERN CALIFORNIA

Weak low pressure off the Northern California Coast and high pressure centered over Mexico will remain nearly stationary causing little change in the weather through this weekend. Isolated showers and thunderstorms will be possible over the Sierra Crest and Northern Deserts each afternoon. Temperatures will be near normal, with upper 70s and 80s across the mountains and upper 80s and 90s in the valleys. Minimum humidity will be between 15% and 30% above and inland from the marine layer. The marine layer will be between 1,500 and 2,000 feet deep through this weekend. Westerly winds of 15 to 25 mph with gusts to 40 mph will surface across the desert passes each afternoon.
Cal OES LAW ENFORCEMENT MISSIONS

New/Ongoing/Closed Cal OES Law Missions

- **2017-LAW-37851, 8-6-17 at 1725 hours**, The Tulare County Sheriff’s Office requested Kern County Sheriff's Office to assist in the rescue of a male adult who was stranded in the Upper Kern River near Salmon Falls in Southeast Tulare County. TCSO Swift water Rescue response was extended by over two hours. KCSO swift water rescue had a 15-20 minute response from Kernville in Kern County. The individual was stranded on a rock in the center of the river after he and another individual’s raft flipped over. Kern County SO Swift Water Rescue responded and was able to perform a boat pick off of the subject without incident. Neither of the men were wearing life jackets and were not injured in the Class V river conditions. **Mission Closed.**

- **2017-LAW-37855, 8-6-17 at 2053 hours**, The ARFRCC reported a PLB activation in Fresno County, 3706.13 N 11832.27 W., The coordinates plotted into Kings Canyon National Park and therefore contact was made with their dispatch and the mission was forwarded to them. The device’s registered owner was a young adult female and per the emergency contact, her mother, was out on a hike. **Mission OnGoing**
Cal OES MISSION TASKING

Cal OES Missions

- **2017-SOC-36209**: Two Public Assistance (PA) Coordinators from the state of New Jersey have been assigned to California through the Emergency Management Assistance Compact (EMAC) system. **UPDATE**: Two PA Coordinators (Team 1) returned safely home on 07/28/17. Two PA Coordinators (Team 2) will provide support at the Sacramento JFO beginning 07/31/17.

- **2017-Cal OES-35819**: Twelve Caltrans engineers requested to conduct damage and site inspections throughout the state for impacts related to 2017 February Winter Storms. The lead engineer will report to the Joint Field Office to coordinate the response.
Mission:
We protect lives and property, build capabilities, and support our communities for a resilient California.

We achieve our mission by serving the public through effective collaboration in preparing for, protecting against, responding to, recovering from, and mitigating the impacts of all hazards and threats.
