California OES
Weather Threat Briefing

Monday, January 13, 2020
9:00 AM PST

• Day 1 (Mon): Strong winds Monday night through Tuesday afternoon on the east side of the Sierra. Damaging winds could blow down trees, fences, and power lines. Power outages are possible. Travel will be difficult, especially for high profile vehicles.
WEATHER KEY POINTS
01/13/20 - 01/19/20

Monday-Tuesday
• Strong winds Monday night through Tuesday afternoon on the east side of the Sierra
  • Damaging winds could blow down trees, fences, and power lines. Power outages are possible. Travel will be difficult, especially for high profile vehicles.
  • Southwest winds 25 to 35 mph with gusts 50 to 70 mph
• Snow will impact travel over the Sierra and mountains of northern CA Monday afternoon through Tuesday morning
  • Above 3500 feet, total snow accumulations of 4 to 8 inches, with local amounts up to 15 inches

Wednesday-Thursday
• Stronger storm system will move across central and northern CA with heavy snow over the mountains causing significant travel impacts
  • Sierra - Snow amounts 1 to 2 feet, with localized amounts up to 3 feet
  • Northern CA mountains - Snow amounts 6 to 12 inches, with localized amounts up to 2 feet

Friday-Sunday
• Valley rain and light mountain snowfall over far northern CA
  • Minor travel impacts over the mountains, primarily in Inland Region
• Otherwise, mostly dry conditions across the state with no significant impacts
