Oroville Dam Auxiliary Spillway Incident
On 04/29/17 at 1344 hours the Department of Water Resources (DWR) advised the California State Warning Center (CSWC) that they will begin decreasing flow to the Feather River on 05/01/17.
• DWR continued decreasing flow to the Feather River on 05/01/17 at 0900 hours. Flow in the Feather River Low Flow Channel (the channel through Oroville) gradually decreased from 28,000 cfs to 3,500 cfs.
• Total flow to the Feather River will gradually decrease from 35,000 cfs to 8,000 cfs by 05/02/17 at 1500 hours.
• Hyatt Powerplant outflow will increase from 0 cfs to 8,000 cfs.
• The Oroville Dam Flood Control Spillway flow will be curtailed from 35,000 cfs to 0 cfs.
• These changes are necessary to manage Lake Oroville’s water surface elevation and to safely close the Flood Control Spillway.
• DWR anticipates operating the Flood Control Spillway once more this season and will send an additional notification as we approach that time.

Per the DWR Flood Operations Center and California Data Exchange Center (CDEC) as of 05/02/17 at 0900 hours:
• Inflow: 19,810 cfs.
• Outflow: 8,076 cfs.
• The current lake elevation is 835.77 feet.

Mission Tasking
• 2017-SOC-33363: Road Repair (Butte County) – On Scene.
• 2017-SOC-34379: Caltrans engineer to visually inspect and conduct Impact-Echo Testing on the gated concrete spillway floor – On Scene.
• 2017-CalOES-34685: Asbestos Monitor (Butte County) – On Scene.
SITUATION SUMMARY

Cal OES COASTAL REGION
Proclamation, Point Arena Water Works, Mendocino County
• The City of Point Arena proclaimed a local emergency due to damage that occurred to a Point Arena Water Works well site creating potentially hazardous conditions. The City is requesting cooperation from appropriate state agencies to issue emergency work permits in order to complete repairs as soon as possible.

SITUATION SUMMARY

2017 February Storms

Cal OES Coastal Region

Pfeiffer Bridge Incident, Monterey County
California Highway Patrol (CHP) and Caltrans had a hard closure on the Pfeiffer Bridge on HWY 1 at mile marker 45.52 (SB Sycamore Canyon and the Bridge) due to a crack in the bridge.
• Backup air medical transport plans have been developed for medical emergencies through Cal OES Law Enforcement Branch.
• All businesses north of the Pfeiffer Canyon Bridge closure are open to the public.
Per the Cal OES Coastal Duty Officer (CDO), as of 04/27/17, Hwy 1 from the south is closed at Ragged Point and is open at specific intervals to local traffic only. The bridge has been demolished so the road is closed and estimates for some access from the north is late September 2017.

Cal OES Inland Region

River Forecast - The following rivers are forecast to meet or exceed Flood stage:
Placer County:
• Truckee River at Truckee is forecast to be above flood stage at 5.2 feet the morning of 05/04/17.
  • Potential Impacts: Flood Stage. Minor flooding from Bear Creek in the Alpine Meadows area to Truckee. Truckee River bike path between the River Ranch at Alpine Meadows Road to Tahoe City begins to flood. Basements and yards of some low-lying homes along the river begin to flood. Deep Creek Campground begins to flood. About 2270 cfs. USGS estimates this much flow has about a 1 in 4 chance of being exceeded any year.

Mariposa County:
• Merced River at Yosemite at Pohono Bridge is forecast to be at or above flood stage at 11.0 feet the morning of 05/05/17.
  • Potential Impacts: Water tops the swinging bridge downstream from Chapel Meadow. Overflow from Woski Pond floods access road (Northside Drive) leading out of the west entrance of the park.

River Forecast - The following rivers are forecast to meet or exceed Monitor Stage:
• Sutter County: Sacramento River at Tisdale Weir, Sacramento River at Fremont Weir
• Alpine County: West Fork Carson River at Woodfords, East Fork Carson River at Markleeville
• Yolo County: Yolo Bypass at Lisbon
• San Joaquin County: San Joaquin River at Vernalis
• Stanislaus County: Tuolumne River at Modesto
• Merced County: Merced River at Stevinson, San Joaquin River at Newman

WEATHER OF CONCERN

Weather of Concern
• Early season heat will continue to become warmer as above average temperatures are expected across the state this week

Active Weather Warnings, Watches and Advisories by County:
• https://alerts-v2.weather.gov/counties/CA
WEATHER SYNOPSIS BY REGION

NORTHERN CALIFORNIA
A high pressure ridge will continue to get stronger over Northern California through Wednesday. Overall, there will be sunny skies and warming temperatures, but there will also be some cloudiness in the northern half of the region. A big weather story will be the unseasonably warm temperatures through Thursday that will peak Wednesday with the warmest values of the year so far. Afternoon highs Wednesday will be as much as 15 degrees above normal inland with the warmest valleys in the low and mid 90s. A few afternoon and evening, mainly mountain thunderstorms are expected to develop as early as Wednesday, but the chances for that will be higher and become a bit more widespread Thursday through Saturday and possibly again Sunday as the ridge weakens and a low pressure trough moves into the region. Much cooler temperatures will be in place Friday onward with the warmest inland areas dropping into the 70s overall with Saturday the coolest day there in the lower 70s which is about 5 degrees below normal. Winds will mostly be northerly this week except for some moderately strong, gusty southerly to westerly winds later Thursday into Friday. The north winds are expected to become somewhat strong and gusty at times over the weekend and next Monday.

SOUTHERN CALIFORNIA
Very warm and dry through Thursday
Temperatures will be 10 to 20 degrees above normal away from the coast through Thursday as a ridge of high pressure moves inland from the Pacific Ocean. Maximum temperatures will be in the 70s to low 80s across the mountains and mid 80s to mid 90s in the valleys today. Minimum humidity will be mainly in the teens away from the coast through Thursday. Winds will be fairly light through Thursday, except there will be gusty afternoon winds associated with the sea breeze. A significant cooling trend along with an increase in humidity will occur Friday through early next week as a deep area of low pressure drops down the West Coast. Temperatures will be 10 to 20 degrees below normal Sunday and Monday. Isolated afternoon showers and thunderstorms will form over the Sierra Crest Thursday and Friday as the flow aloft switches from the north to the south. Showers and thunderstorms will occur across the entire region Saturday afternoon through early next week as the low pressure sits and spins off the Southern California Coast. Significant rainfall amounts will be possible depending on the exact track of the low. South to west winds of 20 to 30 mph with gusts to 50 mph will surface across the mountain ridges and desert passes Friday afternoon through this weekend.
Cal OES LAW ENFORCEMENT MISSIONS

• Nothing Significant to Report
Cal OES MISSIONS

Cal OES Missions

• **2016-IREOC-21748:** Tasking Caltrans to extend state highway right of way to facilitate hazard tree removal. This is a long term mission and is expected to remain in place through the summer months. **Mission Ongoing.**

• **2015-IREOC-19846:** One RAWS weather station to Amador OA – On scene 11/30/15, expected to be left in place until May 2017. **Mission Ongoing.**
Cal OES 2017 DROUGHT

The SOC remains activated in support of the Drought State of Emergency and continues to monitor the situation.

Current Local Emergency Proclamations:
A total of 38 local Emergency Proclamations have been received to date from city, county, and tribal governments, as well as special districts:

- 5 Counties: Fresno, Kings, Tulare, and Tuolumne, and San Joaquin

- 10 Cities: City of Live Oak (Sutter County), City of Lodi (San Joaquin County), City of Manteca (San Joaquin County), City of Montague (Siskiyou County), City of Porterville (Tulare County), City of Portola (Plumas County), City of Ripon (San Joaquin County), City of Rancho Cucamonga (San Bernardino County) City of West Sacramento (Yolo County), and City of Fort Bragg (Mendocino County)

- 11 Tribes: Cortina Indian Rancheria (Colusa County), Hoopa Valley Tribe (Humboldt County), Karuk Tribe (Siskiyou/Humboldt Counties), Kashia Band of Pomo Indians of the Stewarts Point Rancheria (Sonoma County), Picayune Rancheria of Chukchansi Indians (Madera County), Sherwood Valley Pomo Indian Tribe (Mendocino County), Tolowa Dee-ni’ Nation (Del Norte), Tule River Indian Tribe (Tulare County), Tuolumne Band of Me-Wuk Indians (Tuolumne County), Yocha Dehe Wintun Nation (Yolo County), and Yurok Tribe (Humboldt County)

- 12 Special Districts: Carpinteria Valley Water District (Santa Barbara County), Goleta Water District (Santa Barbara County), Groveland Community Services District (Tuolumne County), Lake Don Pedro Community Services District (Mariposa Stanislaus County), Mariposa Public Utility District (Mariposa County), Meiners Oaks Water District (Ventura County), Montecito Water District (Santa Barbara County), Mountain House Community Service District (San Joaquin County), Nevada Irrigation District (Nevada County), Placer County Water Agency (Placer County), Tuolumne Utilities District (Tuolumne County), and Twain Harte Community Services District (Tuolumne County)
Mission:
We protect lives and property, build capabilities, and support our communities for a resilient California.

We achieve our mission by serving the public through effective collaboration in preparing for, protecting against, responding to, recovering from, and mitigating the impacts of all hazards and threats.
