## Are You Trained?

A disaster can strike at any time. Safety assessments of buildings may be required to determine their condition for use and occupancy.

Will you be ready to help?

## Who Should Attend this Training

- ▷ Building Officials
- ▷ Building Inspectors
- ▷ Plan Reviewers
- ▷ Public Works Inspectors
- ▷ Architects, Engineers
- ▷ Anyone interested in assisting the City of Healdsburg in assessing buildings following a disaster.

**City of Healdsburg  
Planning & Building Department  
401 Grove Street  
Healdsburg, CA 95448**

## Post-Disaster Safety Assessment Training

City of Healdsburg**

# Post-Disaster Safety Assessment Training

This full-day training will provide guidelines and procedures for making post-disaster building safety evaluations. The purpose of these evaluations is to determine whether damaged or potentially-damaged buildings are safe for use or if entry should be restricted or prohibited.

This training provides procedures for two different levels of safety evaluation and advice on evaluating structural, geotechnical and nonstructural hazards:

- ▷ Where to look for damage.
- ▷ How to rate the safety significance of damage.

This training is sanctioned through the Governor's Office of Emergency Services.

Each qualified participant will receive a Post Disaster Inspection Identification Card issued by the Governor's Office of Emergency Services. **To obtain a State of California Post Disaster Inspection ID Card, you must provide proof that you are a certified inspector, engineer, architect, or building official.**

City of Healdsburg employees and local contractors will be certified by the City as having received the required training to assist the City in post-disaster damage assessment inspections.
